EDUCATION

CARNEGIE MELLON UNIVERSITY – TEPPER SCHOOL OF BUSINESS — Pittsburgh, PA
M.S. in Business Analytics — Aug 2026 – May 2027 (Expected)
- **Leadership:** Selected M.S. in Business Analytics (MSBA) Student Ambassador (2026–27).

NATIONAL YANG MING CHIAO TUNG UNIVERSITY (NYCU) — Taipei, Taiwan
M.S. in Biophotonics — Sep 2024 – Jun 2026
- **Honors:** Outstanding Thesis Award (1st Place, 2026).

NATIONAL YANG MING CHIAO TUNG UNIVERSITY — Taipei, Taiwan
B.S. in Biomedical Imaging and Radiological Sciences, Minor in Biomedical Engineering — Sep 2020 – Jun 2024
- **Honors:** Honor Student Award; **Leadership:** President, Department Student Association

EXPERIENCE

AITEWAN BIOMEDICAL TECHNOLOGY CO., LTD. — Taipei, Taiwan
Product Manager | Medical AI Startup (Part-time) — Jul 2024 - Jun 2026
- **Customer Discovery & Requirements:** Led weekly user discovery and testing with 5 physicians at 2 medical centers; converted feedback into product requirements and launched an AI processing progress indicator.
- **Product Optimization:** Reduced end-to-end AI processing time by ~67% (~2 minutes to ~40 seconds) by partnering with physicians and engineers to balance latency, sensitivity, and false positives.
- **Competitive Analysis:** Set and launched institution-specific model thresholds using competitor benchmarks and user needs, prioritizing sensitivity for screening centers and balanced performance for medical centers.
- **Cross-functional Execution:** Led weekly delivery across 12 machine learning, software, regulatory, clinical operations, and leadership stakeholders; coordinated release planning and deferred a model upgrade to avoid 3–6 months of revalidation before the June submission to the Taiwan Food and Drug Administration (TFDA).
- **Product Validation & Recognition:** Supported Connectathon Level I medical-imaging interoperability validation; contributed to DeepBT A+, the NYCU-led project honored with the 2026 Future Tech Award.

AI IN MEDICAL IMAGING / SIGNAL ANALYSIS LAB, NYCU — Taipei, Taiwan
Research Assistant — Feb 2023 – Jun 2026
- **AI Model Evaluation:** Developed and evaluated a brain-tumor MRI AI framework using 12,125 development scans across 2 medical centers; presented first-author research at 2 international conferences.
- **Independent Clinical Validation:** Evaluated 264 independent MRI cases, reducing false-positive candidates by 94.5% (1,007 to 55), with 80.97% lesion sensitivity and 90.16% accuracy on retained true-positive lesions.
- **Technical Development:** Developed and optimized a 3D U-Net for thoracic aorta segmentation in an 8-month National Science and Technology Council-funded undergraduate research project using 308 CT studies (0.95 area under the curve).

DEPARTMENT OF RADIOLOGY, NATIONAL TAIWAN UNIVERSITY HOSPITAL — Taipei, Taiwan
Clinical Intern — Jul 2023 – Jan 2024
- **Clinical Excellence:** Completed a 1,040-hour clinical internship in diagnostic imaging, radiation oncology, and nuclear medicine; earned a Certificate of Excellence.

BIOMEDICAL IMAGING PHYSICS & INSTRUMENTATION LAB, NYCU — Taipei, Taiwan
Test Manager / Research Assistant — Jun 2021 – Feb 2023
- **Product Testing & Regulatory Review:** Managed testing for 8 regulated products across 5 clients; scoped requirements, resolved nonconformities, coordinated retesting, and delivered 10+ regulatory review reports.
- **Data Analytics & Automation:** Built a MATLAB pipeline for automated CT bone segmentation and quantitative bone-density analysis, adopted by 2 university laboratories.

SKILLS

- **Technical Skills & Tools:** Python, SQL, R, Excel, Tableau, PowerPoint, Notion, Google Sheets; pandas, NumPy, MATLAB; PyTorch, TensorFlow/Keras, scikit-learn, MONAI, nnU-Net, Git, 3D Slicer; DICOM (Digital Imaging and Communications in Medicine), PACS (Picture Archiving and Communication System).
- **Certifications & Credentials:** Google Ads Search & Measurement Certifications (2026); IBM Relational Database Administrator Professional Certificate (2025); Licensed Medical Radiation Technologist (Taiwan Ministry of Health and Welfare, 2024); selected training: Harvard CS50 AI with Python and UC Davis Tableau.
- **Research & Presentations:** First-author poster at Medical Imaging with Deep Learning (MIDL) 2026; first-author oral at Advanced Machine Learning and Data Science (AMLDS) 2026 (Outstanding Oral Presentation Award).
